URGE TO MOVE YOUR LEGS? UNPLEASANT SENSATION IN THE LEGS?

WE ARE LOOKING FOR PEOPLE WITH RESTLESS LEGS SYNDROME (RLS) TO TEST AN INVESTIGATIONAL NERVE STIMULATION DEVICE, DESIGNED TO REDUCE RLS SYMPTOMS

The study is funded by Noctrix Health

This study involves the evening use of small nerve stimulation devices attached to both legs, actigraphic sleep assessment, and daily electronic surveys for up to 5 weeks at home. In addition, there will be three 2-hr in-lab visits at the Human Sleep Research Laboratory at SRI International in Menlo Park, scheduled in the evening at your convenience.

You will be compensated up to $400 for your participation.
For more information, please contact the sleep laboratory at 650-859-4532 or sleep@sri.com. For Participant Rights, please contact the SRI IRB at 650-859-4022 or email irb@sri.com

You may qualify if:

- You are 18 – 75 years old
- You have RLS symptoms

Individuals with severe mental and/or medical conditions are not eligible for the study

SRI HUMAN SLEEP RESEARCH LABORATORY
Menlo Park, CA
