

Taurus™ Dexterous Robot

Intuitive, precise, remote manipulation
Low-cost dexterous, remote manipulation solution

INVENT

New generation of low-cost dexterous manipulation solutions

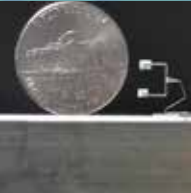

SuperFlex™ Suit

SuperFlex soft-suit enhances performance and strength
Muscle-like actuation boosts strength and transcends limitations of the human body

MicroFactory™ Platform

Micro-scale assembly
Next-generation micro-assembly
Micro-robots for manufacturing

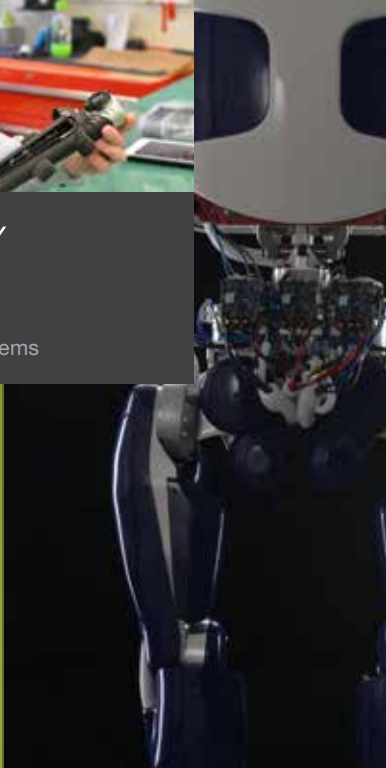

APPLY

Advanced components, software and systems

Humanoid—Hand—Arm

Redefining humanoid efficiency
Low cost, high performance
Dexterous end effectors
Novel transmissions with 97% efficiency
Robust underactuated hands

COMMERCIALIZE

SRI Robotics™

SRI Robotics welcomes inquiries related to R&D, licensing, joint ventures, entrepreneurs-in-residence, and venture and strategic funding. Contact us at robotics-program@sri.com.

SRI International

SRI International creates world-changing solutions to make people safer, healthier, and more productive. SRI, a research center headquartered in Menlo Park, California, works primarily in advanced technology and systems, biosciences, computing, and education. SRI brings its innovations to the marketplace through technology licensing, spin-off ventures and new product solutions.
