SRI International and the One Acquisition Solution for Integrated Services (OASIS) Contract

**OASIS** is a General Services Administration (GSA) multiple award, Indefinite Delivery Indefinite Quantity (IDIQ) contract that provides flexible and innovative solutions for complex professional services.

The core disciplines of the contract include program management services, management consulting services, logistics services, engineering services, scientific services, and financial services.

SRI is an awardee of the OASIS contract in Pools 1, 3, and 4. SRI’s capabilities for OASIS include Program Management Services, Logistics Services, Engineering Services, and Scientific Services.

**OASIS Contract Key Features**

- Spans many areas of expertise and mission spaces
- Crosses multiple professional service disciplines
- Offers flexibility for all contract types, including hybrids and cost-reimbursement
- Allows ancillary support components, commonly referred to as Other Direct Costs (ODC)

**OASIS Pool Information**

- Pool 1: Engineering (GS00Q14OADU136)
- Pool 3: Engineering for Military and Aerospace Equipment and Military Weapons (GS00Q14OADU335)
- Pool 4: R&D in Physical, Engineering and Life Sciences (GS00Q14OADU434)

**About SRI International**

SRI International creates world-changing solutions to make people safer, healthier, and more productive. SRI, a research center headquartered in Menlo Park, California, works primarily in advanced technology and systems, biosciences, computing, and education. SRI brings its innovations to the marketplace through technology licensing, spin-off ventures and new product solutions.
What we do
SRI’s research and development is focused on:
- Advanced technology and systems
- Biosciences
- Education
- Information and computing sciences
In addition to R&D, SRI moves its work from the laboratory into solutions. We develop new products, license our technology, and spin off ventures. We also form strategic partnerships and offer a set of innovation programs.

What sets SRI apart
- Vertically integrated business models, from basic science to customer transition.
- Multidisciplinary scale, providing both breadth and depth to solve the hardest problems.
- Independence, which lets us focus absolutely on our customers and anticipate their future needs.
- Nonprofit status, allowing us to take on problems where the return on investment is measured by impact more than by dollars.

Our Capabilities
Clients benefit tremendously from SRI’s breadth and depth, multidisciplinary teams, and understanding of practical applications.

Our offerings span from the idea to the user through basic and applied research, development, deployment, and commercialization.

Locations
Our Menlo Park headquarters in Silicon Valley, south of San Francisco, is complemented by locations throughout the U.S., plus Japan and Greenland.
